

# WELL STATUS

Sept 13, 2022

- **CURRENTLY PUMPING 93,034 GALLONS PER DAY**
- **Replaced pump in Yamaguchi (city well)**
  - Dave Zelhart fixed 2" drain pipe by the horse stalls
  - DZ fixed broken drain pipe by well head. (Looked like a car ran over it)
- **Well #2**
  - Casing distorted due to land movement
  - 1" drain line failed near pump
  - Used rope cutter to sever lifting line near old pump
  - Installed new pump, but water level too low. Will re-measure after rain
- **Replaced pump in Well #15**
- **Replaced pump in Well #1**
- **Installed power pole in well #6 (Clovetree) (Again)**
- **ACLAD Near-term Plan**
  - Clean debris from PVDS system meter
